A total of **2,091,509** hours of services provided to **26,637** people | **26,567** (2023)

### YOUTH

Significant increase in the number of children screened by the Agir tôt platform

**1,494** | **809** (2023)

### MENTAL HEALTH

**49,65%** of users received mental health care and services within the prescribed timeframe

### PROFESSIONAL SERVICES

**37,2%** of people consulted a healthcare professional within 36 hours in medical clinics, exceeding the ministerial target by **17,2%**

### EMERGENCY-DEPARTMENT WAITING TIME

**69 minutes** less to see a doctor

**184 minutes** compared with **253** in 2023

### STRETCHER IN THE EMERGENCY DEPARTMENT

(average length)

Stay reduced by **0,26 hour**

**15 hours** compared to **15,26** in 2023

### PENDING SURGERIES

(more than 12 months waiting time)

**1,353** surgical requests pending for more than a year

### ONCOLOGY SURGERY

Decrease in the percentage of patients treated by oncological surgery in 28 days or less

**36,5%** compared with **41%** in 2023

# Highlights

Over the past year, our entire action plan has been reviewed to clearly define the vision, directions and objectives that will guide our organization until 2027. In line with Bill 15 and Mr. Dubé's Health Plan, our 2023-2027 strategy aims to achieve common goals by combining our strengths and knowledge in four major new directions:

- **Promote** the home as the most suitable environment for well-being;
- **Provide** workplaces that contributes to one's development and fulfilment;
- **Transform** practices thanks to the university mission;
- **Contribute** to sustainable development socially, economically, and environmentally.

## MAJOR FACILITY MODERNIZATION PROJECTS

Work on the construction of seniors' and alternative housing facilities in Estrie is well underway. Last February, the « **Maison des aînés et alternative de Magog** » opened its doors to residents. To follow the progress of these projects and find out about opening dates, please visit our website regularly: [santeestrie.qc.ca/ciuss/projets-majeurs/maisons-des-aines-et-alternatives](https://santeestrie.qc.ca/ciuss/projets-majeurs/maisons-des-aines-et-alternatives).

On March 18, the « **Aire ouverte** » team inaugurated its facilities in order to offer a welcoming space for local young people between the ages of 12 and 25.

To improve the efficiency of **hemodynamic** and **angiographic** procedures, the rooms in these two sectors have been modernized.

## HIRING NEW RECRUITS

Once again this year, we continued our recruitment efforts, and a total of **3,165 new resources** joined our organization, across all job categories.

## THE IMPORTANCE OF MENTAL HEALTH IN THE POPULATION

It is important for our organization to improve mental health services and make them more accessible. That's why several initiatives have been deployed over the past year:

- « **L'équipe ACCÈS** » offers health care and social services to people living with opioid addiction, homelessness, poverty and social exclusion.
- **Four new mixed psychosocial and police outreach teams** have been deployed in our territory.
- We recently opened a respite home, « **L'Éclaircie** », for people experiencing psychological distress or momentary psychosocial crisis.

## THE WELL-BEING OF YOUNG PEOPLE AND THEIR FAMILIES REMAINS A PRIORITY

Youth remains a priority for our organization, and work continues on the Action Plan for the young people and their families. We invite you to visit our website regularly to check on the progress of the plan, or to find out about all the services available to families and how to access them: [santeestrie.qc.ca/ciuss/projets-majeurs/tous-concernes](https://santeestrie.qc.ca/ciuss/projets-majeurs/tous-concernes).

# DID YOU KNOW?

## The service quality and complaints commissioner:

- is responsible for *implementing the complaint* investigation process;
- reports directly to the *Board of Directors*;
- works entirely *independently*;
- has the authority to *require the provision of information necessary* to investigate complains, to summon the people concerned, and, upon completion of the investigation, to *make recommendations* to improve the quality of care and services;
- may *intervene on his or her own initiative* and *recommend any measure* aimed at user satisfaction and the respect for their rights when he or she has reasonable grounds to believe that the rights of one or more users are not being respected.

## FILING A COMPLAINT IS A USER RIGHT

Anyone who is dissatisfied with the care or services they are receiving or require, have received, or should have received may file a complaint.

## IT IS THEIR RIGHT!

### 4 MAJOR INITIATIVES TO HELP IMPROVE QUALITY!

**Foster** rehabilitation care that is respectful of the rights of troubled youth who are lodged

**Promote** care environments that are attentive to the needs and rights of hospitalized mental health care users

**Establish** an approach that promotes the communication of information that is centred on the user and their close family members

**Ensure** the responsible management of situations of maltreatment against seniors and persons of full age in vulnerable situations

## Complaint handling by the numbers

2,822 files processed by the Commissioner and her team | 2,574 (2023)

215 cases completed by medical examiners | 178 (2023)

1,560 improvement measures issued | 1,127 (2023)

**Reasons for dissatisfaction:** maltreatment, care and services provided, accessibility, interpersonal relationships

## INFORMATION
